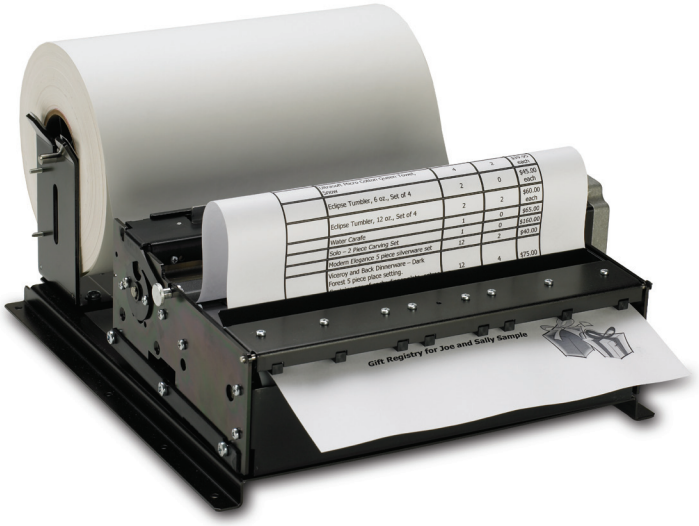
Zebra® TTP 8000 Series™ Kiosk Printers

ZEBRA TECHNOLOGIES

SEE MORE. DO MORE.



The TTP 8000 series kiosk printers offer 203 dpi resolution for full-format A4 or letter-size printouts of forms, bank statements, maps or Web pages. The fast, compact and low-maintenance design makes these printers ideal for unattended environments. The pull detector and jam-preventing loop presenter provide trouble-free operation. The retract function keeps sensitive documents from being left behind outside the kiosk—and it saves media. If a printout is not taken from the printer, the output will be retracted, and the remaining information can be deleted from the queue, eliminating unwanted print jobs. The TTP 8200™ is available in three configurations for flexible kiosk integration: standard, compact and vertical, each equipped with standard USB and parallel interfaces. For additional configuration flexibility, the media can be mounted either behind or below the printer. For applications requiring crisp images, Zebra offers the TTP 8300™ kiosk printer with 300 dpi resolution.

TTP 8000 Series Kiosk Printers Offer:

Unremitting Reliability to Keep Kiosks Printing
Optimized for tough printing environments where durability, reliability, minimal maintenance and ease of use are critical, Zebra printers maximize uptime and minimize upkeep.

Easy to Integrate in Kiosk Designs
A small footprint and flexible mounting options make our printers ideal for a variety of applications.

End Benefits
As an integral part of a self-service kiosk solution, Zebra printers help companies improve service, raise customer satisfaction, increase revenue and lower operational costs.
